

I wanted to thank you so very much for taking the photos of us. I went on line and looked at the pictures that were done and about cried. They are beautiful and I am so very thankful that I have these wonderful pictures to look back on as we approach this new journey in life! I was amazed at how elegant those pictures came out and I cannot wait to show my family the pictures because that is all I talk about now. I cannot thank you enough for the pictures!

You did such a wonderful job capturing the essence of my pregnancy. Your photos made me feel beautiful and proud to be expecting. Anyone who chooses to have their pictures taken by you will be blessed with wonderful memories of an amazing part of life.

I just looked at the pictures and they are fabulous!!!! You did such a great job! Thank you so much!!!

They look awesome. Thank you so much for doing that. My mom took the book to work. She said she had half the floor crying. I wanted to thank you again for doing that. This has been so amazing for us. We could never dream of such amazing things to give our baby.

Beautiful photography. Thank you so much.

I really love them. They are just what I was hoping for. Thank you so much.

Thank you so much for taking the time to do the photos with us. We absolutely adore them.

We have been looking at the prints constantly, we just keep changing our minds on which ones we like, because, well, we like them all. It was truly our pleasure, and we cannot wait to see you again.

It's so hard to choose from so many beautiful pics we cant decide !! We have picked out 25 that we really like a lot, but it's so difficult to narrow down. We had such a great time.

The pictures are amazing. Thank you so much.

I just looked at that picture that you turned into black and white. I must say, that picture could make it to a magazine!!!!!!!!!! I still can't believe that that's us on that picture, it is so beautiful! I am speechless, we are so proud of all of them, but especially that one! It looks like pure art.

The photos are wonderful! Thank you ever so much- it was a beautiful experience, we'll never forget it! After being so sick for most of the pregnancy, we will have these treasures to look back at and remember just how special this time in our life really has been.

It was great seeing you. We truly appreciate and honor the time that we get to spend together, as well as your interest and caring for our young growing family. We value your advice, your experience, and your kind words, and we truly are thankful to have grown to know you as a close family friend. We cannot wait for more photos and many more photo opportunities. Thank you so much for being a part of our ever changing life.
